UPI articles:

[Mystery blood clots felling U.S. troops](#)

Unexplained blood clots are among the reasons a number of U.S. soldiers in Operation Iraqi Freedom have died from sudden illnesses, an investigation by United Press International has found.

[4,000 U.S. non-combat evacuations in Iraq](#)

Nearly 4,000 U.S. troops have been medically evacuated from Operation Iraqi Freedom for non-combat reasons -- with more than one in five of those for psychiatric or neurological problems, according to Pentagon data.

[Mystery pneumonia toll may be much higher](#)

Mysterious pneumonia-like illnesses and breathing problems appear to be striking U.S. troops in

greater numbers than the military has identified in an investigation -- including more deaths, according to soldiers and their families.

War zone pneumonia linked to smoking

Nineteen cases of severe pneumonia, including two deaths, among troops in the Iraq war zone have been linked to smoking.

Widow fears Pentagon 'lying' on pneumonia

Joining a growing chorus of families, the widow of a soldier in Iraq who died of a mysterious pneumonia-like illness said Thursday she fears the military may be lying about her husband's death.

Doctor: Pentagon slow in vaccine death

A civilian doctor who took care of an Illinois soldier before she died in April says the Pentagon should have treated her death as possibly due to vaccine side effects, but may be hesitating because of the impact on the military's controversial smallpox and anthrax vaccine programs. The death of Rachael Lacy, 22, of Lynwood, Ill., has taken on added significance because she died without ever being deployed, but had pneumonia.

Dead soldiers' families want outside probe

The families of two soldiers in Iraq who died after apparently suffering pneumonia-like illnesses are seeking independent analyses of the deaths.

Father of dead soldier claims Army coverup

The father of a soldier who died of pneumonia this spring said Thursday the Army has excluded her death from its investigation of deadly pneumonia because it wants to cover up vaccine side effects. "The government is covering this up and it is a dog-gone shame," said Moses Lacy, whose daughter, Army Spc.

Army weighs vaccine link in troops' death

The Army will consider whether the anthrax or other vaccine could be causing a cluster of pneumonia cases among soldiers in Iraq and southwestern Asia, an official said Wednesday. Col.
